PROJECTS

Train Time —*App*

An app that calculates train arrivals based on real time.

Utilized Firebase to store train time data.

Utilized Moment.js to declare real time.

GifTastic (Superhero Search) —*App*

An app that searches for superhero gifs.

Utilized the Giphy API to retrieve gif information.

Allows user to add superhero not listed in app.

Crystal Challenge —*Game*

A simple game that challenges players to think of addition strategies.

Created an array of random numbers between 19 and 120.

Utilized local storage to hold the numbers.
